To be picture perfect!

Albany Dermatology helps you care for the skin you're in as you prepare for YOUR special day.

We offer a personalized pre-wedding skin & rejuvenation plan of services for Brides, Grooms & their wedding parties.

Everyone begins with a complimentary Cosmetic & Esthetic personal consultation to evaluate their skin health and to identify objectives for rejuvenation and enhancement.

Be sure to schedule your personal consultation soon after your engagement to allow time before the wedding date for telltale signs from procedures to fade and for the benefits to be fully realized.

caring for the skin you're in!

Areas of focus

- ❑ TO CLEAR UP SKIN
- ❑ RELAX THE WRINKLES
- ❑ SOFTEN FACIAL LINES
- ❑ REJUVENATE YOUR SKIN
- ❑ GET RID OF UNWANTED HAIR

❑ MEDICAL TREATMENT

A wedding day is no time to worry about an acne breakout or rosacea flare! If you regularly contend with acne or rosacea redness, these should be addressed early on. Albany Dermatology will develop a medical care plan that includes treatment throughout your timeline, helping to control breakouts and flares to make your skin healthier.

Topical medication is the most common approach for treatment, delivered as a gel, cream, wash, or other formulation. Oral medication may be used to combat bacteria & inflammation of the skin & treat hormonal issues. Often, a combination of treatments are required to achieve optimal results. Outcomes may be enhanced when coupled with esthetic services tailored to your skin type, or Intense Pulse Light (IPL) to eliminate bacteria and fight inflammation and redness.

We may also discuss treatment for comprehensive issues such as acne scars, deep wrinkles, photoaging & sun damage concerns.

❑ 6 TO 12 MONTHS PRIOR

MEDICAL TREATMENT: Continue medical care plan.

COSMETIC SERVICES: This is the time to follow-up on comprehensive issues related to deep wrinkles, acne scars, pigmentation issues & other sun damage concerns. Consider volumizers such as Sculptra®, Radiesse® or Voluma® for extended correction of deep wrinkles & volume loss, particularly for hollow temples & cheeks. IPL is an option for facial redness, sun-induced freckles or other benign brown spots.

In addition, consider Leg Vein Therapy & Laser Hair Removal for your target areas.

ESTHETIC SERVICES: Specialized facials, Chemical Peels and Microdermabrasion help address enlarged pores, skin texture, fine lines, pigmentation issues and sun damage.

❑ 3 TO 6 MONTHS PRIOR

MEDICAL TREATMENT: Continue medical care plan.

COSMETIC SERVICES: Still time to consider or continue injectable neurotoxins such as Botox® & Dysport® in combination with hyaluronic acid products such as Juvederm® or Restylane® to relax wrinkles also the expression lines that appear on your forehead, between your eyebrows, around your eyes, nose & mouth.

In addition, consider Leg Vein Therapy & Laser Hair Removal for your target areas. IPL is an option for facial redness, sun-induced freckles and other benign brown spots.

ESTHETIC SERVICES: Microdermabrasion, Chemical Peels and Specialized Facials will help address enlarged pores, skin texture, fine lines, pigmentation issues and sun damage.

❑ 3 TO 6 WEEKS PRIOR

MEDICAL TREATMENT, COSMETIC & ESTHETIC SERVICES: Touch-up time to maximize the gains of the procedures you've had along the way. This includes injectable neurotoxins such as Botox® or Dysport®, and a continuation of Specialized Facials, Chemical Peels & Microdermabrasion and continue with any medical care plan in progress.

❑ 1 TO 2 WEEKS PRIOR

MEDICAL TREATMENT & ESTHETIC SERVICES: You are close to the wedding date now. Make your facial and/or medical appointment(s) to address any acne breakout or rosacea flare.
